The Tapimagine is a playful and interactive story telling tool conceived to make the children participate to an out of the ordinary reading experience, create a link between a story, a book and the children, and allow them to fly to a fantasyland! The colourful story time carpet captivates the children and includes them in the story by the fact that they are all sitting around, or on the carpet, with the storyteller presenting and reading the story. This event is possible thanks to the financial support of the **Quebec Government** and of the **MRC Pontiac** under the *Cultural development agreement*.

The Réseau BIBLIO de l'Outaouais is a non-profit organization who, with more than 53 years of dedicated administrators, staff and volunteers, aims to create and support local library services to promote culture in all circles, for the greater benefit of citizens.
